PROFESSIONAL SUMMARY

Business Development Executive with experience in international software sales, IT services, B2B partnerships, and AI-focused projects. Skilled in client discovery, product demonstrations, solution consulting, proposal development, and CRM-based pipeline management. Combines commercial judgment with a technical foundation in artificial intelligence and machine learning to translate business needs into practical technology solutions.

CORE EXPERTISE

International Software Sales · SaaS and IT Services · Client Relationship Management · Account Management · Product Demonstrations · Solution Consulting · Proposal Writing · Market Research

PROFESSIONAL EXPERIENCE

Business Development Executive and AI

Jun 2026 - Present

Handshake AI · California, United States · Remote

- Support AI-focused business and research projects through structured analysis, evaluation, and data-driven insights.
- Research markets, companies, products, and industries to support decisions and identify opportunities.
- Analyze business scenarios, customer requirements, and commercial use cases across multiple industries.
- Evaluate AI-generated business content for accuracy, relevance, quality, and alignment with project requirements.
- Assess client needs, value propositions, competitive positioning, and potential solutions across project-based assignments.
- Manage multiple remote projects independently while meeting quality standards, deadlines, and project guidelines.

Business Development Executive

Jan 2026 - May 2026

Suffescom Solutions Pvt Ltd · Punjab, India

- Managed international software sales and business development activities across digital products and custom solutions.
- Led product demonstrations and explained end-to-end workflows for white-label applications, crypto platforms, and websites.
- Translated client requirements into tailored technology recommendations, proposals, and deal-support materials.
- Built B2B relationships and managed sales opportunities through CRM tools.

Business Development Executive

Jun 2025 - Jan 2026

Brillsense Private Limited · Madhya Pradesh, India

- Managed end-to-end IT sales cycles and supported revenue growth through client engagement and opportunity management.
- Built partnerships across IT and non-IT organizations and led product presentations, proposal discussions, and contract renewals.
- Collaborated across teams to deliver customized IT and digital solutions aligned with client requirements.
- Maintained CRM pipelines and sales forecasts while supporting software and digital marketing initiatives.

EDUCATION

Bachelor of Technology in Computer Science and Engineering

Specialization in Artificial Intelligence and Machine Learning

Kalasalingam Academy of Research and Education · Tamil Nadu, India

Oct 2021 - Apr 2025

SELECTED TECHNICAL PROJECTS

Intrusion Detection System | Python · Machine Learning · Flask

Implemented an AI-powered system to monitor and analyze network activity, supporting stronger cybersecurity monitoring.

Real-Time Drowsiness Detection | Python · Machine Learning

Developed a driver-fatigue detection model with alert mechanisms for real-world applications.

Real-Time Object Detection Using YOLOv8 | Python · Deep Learning

Built a scalable object-detection model for automation and surveillance use cases.

Hospital Management System | Java · SQL

Designed a digital system to streamline hospital operations and patient-data management.
